

It is recommended that data from the following laboratory be accepted for drinking water analyses for regulatory purposes by the Hawaii Department of Health, Safe Drinking Water Branch for the contaminants listed.

**Effective Date: September 1, 2015**

**Expiration Date: August 31, 2016**

**ACZ LABORATORIES, INC.  
2773 DOWNHILL DRIVE  
STEAMBOAT SPRINGS, COLORADO 80487**

**Matt Sowards, QA/QC Officer  
(800) 334-5493**

**Radiochemistry of Drinking Water**

Gross Alpha	EPA 900.0
Gross Beta	EPA 900.0
Radium-226	EPA 903.1
Radium-228	EPA 904.0
Uranium	EPA 200.8

Dear Mr. Sowards:

After a review of the required documents, we are pleased to recommend that the data for drinking water analyses be “accepted” for regulatory purposes by the Hawaii Department of Health, Safe Drinking Water Branch until **August 31, 2016** for the parameters listed on the following pages. **All testing for regulatory drinking water purposes must be done with approved methods that are specified in this certification, and PT studies must be passed using these methodologies. The laboratory annually must successfully complete a PT study for each analyte to be certified. Failure to do so, would result in the loss of approval status with this state. In addition, the laboratory should perform its first PT study within the first half of the year.**

It is the laboratory’s responsibility to keep the Department of Health Certification Program informed by continuing to submit results of applicable PT studies, copies of in-state on-site evaluation reports, and immediate notification of any significant changes. The certification of your laboratory in Hawaii is based on your in-state and or on your NELAP certification. As a result, any changes to your in-state and or your NELAP certification status must be submitted immediately.

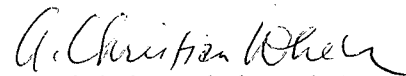

All samples that are contracted out by your laboratory for Hawaii regulatory drinking water monitoring purposes must be analyzed by laboratories that have been approved by the Hawaii Safe Drinking Water Program. A list of Hawaii approved certified laboratories is available from Robert Pineda (808-453-6679) or from the Hawaii Safe Drinking Water Program (808-586-4258).

Mr. Matt Sowards  
August 4, 2015

**To avoid interruption of your approval, you must submit a written request for renewal at least two months prior to the expiration date indicated above.**

If you have any questions, please call Robert Pineda, Laboratory Certification Officer, at (808) 453-6679. Thank you for your time and efforts.

Sincerely,

  
A. Christian Whelen, Ph.D.  
State Laboratories Administrator
