RE: Chemistry and Radiochemistry Certification

Dear Mr. Sowards:

Enclosed are your new Colorado Department of Public Health and Environment Safe Drinking Water (SDW) Chemistry and Radiochemistry Certificates along with your laboratory scope of accreditation dated September 1, 2016, which are effective through August 31, 2017, unless suspended or revoked prior to that date, and are based on the August 3-4, 2016 onsite visit with **No Deviation** and upon successful participation in recent Water Supply Proficiency Testing Studies ERA (WS-231, RAD-103) for your approved parameters.

Recommendation:

- *Sampling Instructions for LCR to be send with sample container.*
- *MRL/ PVQ must part of every sequence to accurately ensure the QC is uniform thru ough the laboratory.*

This certification must be renewed by September 2017. Routine on-site assessments are conducted every two years unless the certification is modified. Renewal application, requirements and fee structure are available online at : www.coloradowaterlabs.us

Should you have any questions, or if there are changes that may affect your certification status, you can reach me at (303) 692-3045.

Best Regards,

Ben Chouaf, Certification Officer
