

New Mexico Environment Department

Drinking Water Laboratory Certification Program

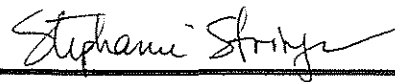

under Primacy Agreement with the United States Environmental Protection Agency, pursuant to the Safe Drinking Water Act Regulations, 40CFR, Part 141 certifies that

ACZ Laboratories Inc. (Lab #C000028)

2773 Downhill Drive Steamboat Springs, CO 80487

is in compliance with the criteria and procedures of the NM Drinking Water Laboratory Certification Program to analyze and report SDWA compliance data in New Mexico. The laboratory may perform EPA approved chemical and radiochemical analyses for NM public water systems for the contaminants listed in the attached laboratory scope of accreditation.

Certification Effective: August 1, 2016 - July 31, 2017

Stephanie Stringer, Certification Authority

RE: Lab Certification Approval

Mr. Sowards,

The Drinking Water Laboratory Certification Program (DWLCP) has reviewed ACZ Laboratories, Inc.'s (ACZ) updated Utah NELAP certification received September 6, 2016.

Upon review of the submitted information including NELAP certification #CO000282016-15 from the State of Utah, DWLCP accepts ACZ's primary Utah NELAP drinking water certification for reciprocity drinking water certification in New Mexico. ACZ's New Mexico drinking water certification is valid for the list of methods and analytes in the attached laboratory scope of accreditation.

The attached NM certification to perform drinking water analysis in compliance with the Federal Safe Drinking Water Act (SDWA), pursuant to 40 CFR Part 141, and the New Mexico Environment Department Drinking Water Regulations for regulated contaminants is valid from August 1, 2016 until July 31, 2017. Upon expiration, it is ACZ's responsibility to reapply for certification renewal in order to continue performing drinking water analyses for SDWA compliance in New Mexico. ACZ must advise the DWLCP of any major change in personnel, equipment, laboratory location, or accreditation by the State of Utah within 30 days of the change and continue to provide successful annual performance evaluation results to maintain certification.

The DWLCP reserves the ability to reject drinking water certification renewal requests for any lab that does not analyze compliance drinking water samples in New Mexico.

Sincerely,

Oneva Peña
Lab Coordinator
