DEPARTMENT OF ENVIRONMENTAL QUALITY
LANSING

C. HEIDI GREETHER
DIRECTOR

August 9, 2018

Mr. Matt Sowards
ACZ Laboratories, Inc.
2773 Downhill Drive
Steamboat Springs, CO 80487

Laboratory No: 9967

Dear Mr. Sowards:

SUBJECT: Recognition of Certification for Radiological Testing

The ACZ Laboratories, Inc. certification status with the State of Colorado Laboratory Services Division Certification Program and other information submitted to this office by your laboratory has been reviewed. Based on this information, the Michigan Department of Environmental Quality (DEQ) will recognize results generated by your facility for the radiochemistry parameters listed on your certification from the State of Colorado Laboratory Services Division Certification Program Safe Drinking Water Act.

Please note the State of Michigan does not certify laboratories for radiochemistry analyses. This letter only serves as recognition of your facility, so you may analyze drinking water samples originating in the State of Michigan. In order to maintain recognition status, you must continue to comply with all of the requirements of your certification for radiochemistry analysis from the State of Colorado Laboratory Services Division Certification Program. In addition, your laboratory's recognition status in Michigan is contingent on your laboratory submitting to this office acceptable proficiency test sample results per year for each method/analyte combination which recognition is sought.

This recognition will expire on August 31, 2019. Once the laboratory has completed the certification process with the State of Colorado Laboratory Services Division Certification Program forward a copy of any on-site assessment reports issued with the Laboratory's corrective action reply and any radiological certifications issued. An updated letter will be issued from this office at that time. If you have questions or comments regarding this information, please contact me by phone at 517-335-9219 or by email at lundyg@michigan.gov.

Sincerely,

Gregg A. Lundy
Laboratory Certification Officer
