DEPARTMENT OF  
ENVIRONMENT, GREAT LAKES, AND ENERGY  
LANSING

LIESL EICHLER CLARK  
DIRECTOR

July 30, 2019

Mr. Matt Sowards  
ACZ Laboratories, Inc.  
2773 Downhill Drive  
Steamboat Springs, CO 80487

Laboratory No: 9967

Dear Mr. Sowards:

SUBJECT: Recognition of Certification for Radiological Testing

The ACZ Laboratories, Inc. certification status with the State of Colorado Department of Public Health Laboratory Services Division and other information submitted to this office by your laboratory has been reviewed. Based on this information, the Michigan Department of Environment, Great Lakes, and Energy (EGLE) will recognize results generated by your facility for the radiochemistry parameters listed on your certification from the State of Colorado Department of Public Health Laboratory Services Division certification.

Please note the State of Michigan does not certify laboratories for radiochemistry analyses. This letter only serves as recognition of your facility, so you may analyze drinking water samples originating in the State of Michigan. In order to maintain recognition status, you must continue to comply with all of the requirements of your certification for radiochemistry analysis from the State of Colorado Department of Public Health Laboratory Services Division Certification Program. In addition, your laboratory's recognition status in Michigan is contingent on your laboratory submitting to this office acceptable proficiency test sample results at least annually for each method/analyte combination which recognition is sought.

This recognition will expire on August 31, 2020. Once the laboratory has completed the certification process with the State of Colorado Department of Public Health Laboratory Services Division forward a copy of any on-site assessment reports issued with the Laboratory's corrective action reply and any radiological certifications issued. An updated letter will be issued from this office at that time. If you have questions or comments regarding this information, please contact me by phone at 517-335-9219 or by email at [lundyg@michigan.gov](mailto:lundyg@michigan.gov).

Sincerely,

Gregg A. Lundy  
Laboratory Certification Officer  
Laboratory Services Section  
Remediation and Redevelopment Division
